- gift packaging
- new product
- single product
- end-user packaging

Great work from UK based IRVING for Carluccio's.

Carluccio's is a series of modern Italian caffès and food shops with a passion for design. From packaging and print through to web design, Irving has worked closely with the founders to build a brand which over eight years has developed from two stores into a hugely successful AIM listed series of destination caffès that has set a new benchmark on the high street.
