

BIODEGRADABLE FAST FOOD PACKAGING

Properties list:

- biodegradability and compostability
- ready to use
- end-user packaging
- concept
- range of products
- other food
- dispensing systems
- identity by shape
- cardboard and paper
- folding carton
- identity by system of colour

Biodegradable fast food packaging using pulped paper and grass paper, keeping grease proof qualities.

User lifts open bag to reveal meal and condiments, reducing packaging.
