

# SPRAY CANDY

---

## Properties list:

illustrated character  
unusual structural association  
contemporary  
plastics  
aerosol spray can  
confectionery and sweetness  
new product  
single product  
end-user packaging  
kids

Containing liquid candy instead of solid/traditional candy, this packaging configures itself exactly as a spray dispenser. The shape, in fact, is the one of a spray can and the product can be consumed by spraying it in the mouth.
