

SPIDERMAN CANDIES

Properties list:

- illustrated character
- contemporary
- plastics
- jar and pot
- confectionery and sweetness
- new product
- single product
- end-user packaging
- kids

This packaging has the shape of a bin, but the material is transparent plastic. It contains candy (gelee?s) wrapped in protective films and the top of the bin is openable, to permit the fruition of the product. Furthermore the top present a slot, so that the packaging, when empty, can be used as a money box.
