- identity by colour
- identity by textures and patterns
- event packaging

This beautifully designed candy calendar by Spanish design studio Series Nemo was a special holiday promotional item. The candy calendar was created and given out to the studio's clients as a unique and festive greeting.

Featuring dark, milk, white and orange-flavored chocolates the candy calendar from Series Nemo isn't an advent calendar, as there are far more than 25 chocolates arranged in the shape of a Christmas tree.
