"Dolci emozioni" offers an entire catalogue of cakes and biscuits in a minimal stylish packaging, whose essential approach is enriched by the yielding shape of the fonts. The graphic layout is emphasized through the use of a laminated paper, easy on the hands, making the optic white of the boxes even brighter. The brilliance of the surface is crossed by the dark transverse words: fonts are embellished by the glossy finish of a special synthetic paint, which provides the colour with a chocolate-like texture.
