OLIO SASSO BOTTLE

Properties list:

end-user packaging range of products sauces and seasonings concept dispensing systems can and tin bottle metals identity by system of colour contemporary refill system

The aim of the concept is to improve the relationship between user and packaging during its use. The project focuses on a new identity through its shape and at the same time on e rgonomics in order to facilitate the action of pouring the oil and the tin transportation.

Project developed for the international student competition "Remarkable Packagings & Alternatives" within the "Emballage" packaging exhibition (Paris, November 19-22, 2012).
