

RISO SIVARIS

Properties list:

- recycled materials
- end-user packaging
- range of products
- new product
- pasta, rice and grains
- eco-friendly
- tube
- cardboard and paper
- unusual structural association
- identity by typography
- identity by shape
- identity by system of colour

The aim of these packages was twofold: to raise products awareness and profile, and to do so with a simple and clear appearance.

To achieve these goals, the graphic design is based exclusively on typography and color to distinguish the different varieties of rice. The packs are made with tubes and lids already existing in the marketplace, while the graphics are laser printed on kraft paper labels which are then adhered to the tube.
