

DRIP MAPLE SYRUP 2013

Properties list:
end-user packaging
update
range of products
sauces and seasonings
bottle
well-being
contemporary
smooth
transparent
identity by typography

This update of the packaging is modeled after the beauty industry packs, especially in its shape. The graphic style is essential and the choice to use a transparent material consents to choose between three different flavors whose description is the only ornament on the surface and represents the syrup almost as a person who intruduces itself, enouncing the main organoleptic features and possible uses.
