end-user packaging
carrying system
reusability

Handmade in Greece from natural ingredients and served to you in a reusable pouch, these nifty little numbers can be used for everything from cleaning your hair to washing your clothes. With a few cold-pressed flakes going a long way, they're economical as well as being eco-friendly, and contain tasty-sounding local ingredients including extra virgin olive oil, greek herbs and honey. The sachet can be reused when the soap is finished.
