additional structural elements
alcohols and spirits
new product
range of products
end-user packaging
adults

The bottle is studied so that it creates a precious and recognizable bottle that reminds a decanter. The front label report the name of the producer in high relief. It's made of wood and copper. A description of "Espressioni" project is printed directly on the bottle using silkscreen colours. The stopper in wood has a bas relief in order to receive the cotton ropes that ensure the hand-made closing. The description of Grappa is on a pendant.
