milk
bottle
brick
polylaminated
glass and ceramics
minimal
contemporary
identity by typography
identity by illustration
identity by system of colour
identity by abstract shapes
concept
range of products
end-user packaging

Concept packaging for a series of flavoured milk. I created a series of flavoured milk with Japanese names. I imagined these bottles and cartons being sold in a cute and artisan shop in Tokyo, along with biscuits and teas. The naming of the packaging, along with the textures on the labels are quite peculiar.
