Properties list:

- end-user packaging
- range of products
- toys
- new product
- box
- transgressive
- identity by typography
- teens
- cardboard and paper
- identity by system of colour

The creation of designer/illustration Jamie Hewlett and musician Damon Albarn, Gorillaz is the world's first virtual band. To mark the achievement of twoplatinum albums, Kidrobot released the 2-Tone edition set of figures. These are the final colorways of the three-dimensional vinyl creations with a run of just 1000 sets. As every collector knows, retaining the distinctive packaging - white with spary paint logo indicating the color of the vinyl model - will be essential to maximize the set's future value.
